

I enjoy listening to K-LOVE because they constantly keep the listeners informed of local Christian events. I like that I don't have to worry about foul language and inappropriate topics while my 2 year old is with me and even when he's not. I would not listen to the LPFM station if they took K-LOVE off the air. I think a lot of other listeners would choose to not listen as well. I think K-LOVE is in the public's interest, because we are given a choice to listen to something encouraging instead of all the violent and perverse music that is out there today. In short I would be greatly pleased if you could leave it how it is.
